⁽a) September quarter 1986 to June quarter 1991 figures have been revised to incorporate 1991 Census results. (b) Excess of births over deaths. (c) The rates represent the increase during the period, expressed as a proportion of the population at the beginning of the period. (d) Discrepancies between the sum of natural increase and net migration figures and the total increase figures are due to inter-censal adjustment.

⁽a) Including new houses and dwelling units in other residential buildings (e.g. flats, home units, etc.) but excluding units offering temporary accommodation (e.g. motels, hostels, etc.) and caretakers' quarters in non-residential buildings. (b) From September quarter 1991, these figures are presented as actual estimates and are no longer rounded to the nearest 10 units as in earlier periods.

⁽a) Foreign export data are compiled on the Hannonised Commodity Description Coding System (HCDCS), not the Standard International Trade Classification (Revision 3).

(b) Excluding non-merchandise trade; including re-exports. (c) These are selected major items only and therefore do not add to the totals shown. From April 1992, exports are compiled on the basis of goods shipped in any calendar month rather than the documentation of goods shipped in that or earlier months. Data have been revised back to July 1991 on the new compilation basis. (d) All means and mean products, fresh, frozen or canned. (e) Raw or refined. (f) Greasy or scoured.

⁽a) Imports relate to the State where the import entry was lodged with the Australian Customs Service. Foreign import data are compiled on the Harmonised Commodity Description Coding System (HCDCS), not the Standard International Trade Classification (Revision 3). (b) Excluding non-merchandise trade. (c) These are selected major groups only and therefore do not add to the totals shown. Imports are recorded statistically in the calendar month in which the import entries are both finalised by the Australian Customs Service and passed to the ABS for further processing. (d) Manufactured goods not included in the other selected commodity groups listed in this table.

⁽a) From September quarter 1991 and September quarter 1992, respectively, data are not comparable with those for previous periods as some caravan parks previously classified as short-term were reclassified as long-term. (b) Including both on-site van sites and other powered sites. (c) From September quarter 1992, caravan park sites, etc. permanently reserved but only casually occupied by their tenants have been recorded continuously as site nights occupied irrespective of whether the tenants of individual sites were in residence on any particular night. Occupancy measures from September quarter 1992 are not therefore comparable with those from previous quarters.

⁽a) Days on which 0.1 millimetres or more of rain fell. (b) Average of all years of record.

Are you keeping up with the demographic changes facing Queensland society today?

The changing distribution of the population means that both the public and private sectors are faced with important planning decisions.

Estimated Resident Population by Age and Sex in Statistical Local Areas, Queensland, 30 June 1994 now gives you easy access to the latest population estimates from the Australian Bureau of Statistics to assist in that decision making.
